

Broken
Oshima Brothers

Use me until I'm done
Heartbeat ain't like a drum baby
Breakdown to smithereens
Built up your throne my queen baby

And how can you do this
How can you do this to me
I scream and I shouted
You walk by with nothing to see
You left me and I'm

Once loved but then forgot
New things to see you saw baby
My life was always fine
Until you changed your mind baby

And how can you do this
How can you do this to me
I scream and I shouted
You walk by with nothing to see

You left me broken
