

**Cadence**  
**Oshima Brothers**

You wrote me ten words told me  
You been hearing my songs and singing along

Used to hold me now you're only  
A melody I sing when strumming these strings out loud

Cadence you're the one  
Left me all undone  
Never got over you  
Cadence on my mind  
Sing it all the time

Your landlord hates the records  
That we used to spin when staying in

Beethoven still playing on your stereo set  
The baby likes that sweet sound

Cadence you're the one  
Left me all undone  
Never got over you  
Cadence on my mind  
Sing it all the time

The winds of change been weathering your skin  
But it's all erased with sounds of violins

Cadence you're the one  
Left me all undone  
Never got over you  
Cadence on my mind  
Sing it all the time
