

Ellie
Oshima Brothers

Ellie I've been on the road for miles
You told me to call you when I get into your county
Looking for a place to lay a while
Take me into all the corners of your daydream
Pull me in to listen to a heartbeat
Long enough to lose all track of time

And I'm driving at sixty five
Cause you said come and get me
I can't stand one more sleepless night alone
Getting closer to you

Ellie I've been dreaming dizzy since you kissed me
And put your name in ink below my shirt sleeve
Told me I could call you anytime

And I'm driving at sixty five
Cause you said come and get me
I can't stand one more sleepless night alone
Getting closer to you

Headlights in the sky
Staying up all night
And I'm coming back to you
Thousand mile drive
They go flying by
Getting closer to

Ellie I've been on the road for miles
You told me to call you when I get into your county
Looking for a place to lay a while
