

Flowers On The Moon
Oshima Brothers

All of the flowers on the moon
Showering ivory petals over you
Taking a redeye just to fly
We find the doors and step into the sky

Darling
I'm falling
For you

Meteors moving in the night
Both of our shadows dancing in the moonlight
Tumbling together in the bloom
We are wallflowers in the middle of the room

Darling
I'm falling
For you

Darling
I'm falling
For you

All of the flowers on the moon
Showering ivory petals over you
You and me in this symphony of stars
No need for gravity for me to fall
