

Fly
Oshima Brothers

Hey honey bee
If I write you a song
That's as sweet as your comb
Would you listen baby

Your sting is mean
But I can't leave you alone
Shake your heart with a poem
Maybe you can save me

And I want you to fly don't let it die that fire inside
Baby and I want you to fly don't let it die that fire inside
Honey oh, fly me home

Hey little bee
You make honey to eat
They say sugar is sweet
But you're purer too me
Smile 'til you weep
And when you're days are dark
I'll bring flowers to the park
Tell you you amazing me

And I want you to fly don't let it die that fire inside
Baby and I want you to fly don't let it die that fire inside
Honey oh, fly me home

When the winter comes again
Please don't pass as autumn ends
If you're cold come to my hand
Light a match to shake the winds

And I want you to fly don't let it die that fire inside
Baby and I want you to fly don't let it die that fire inside
Ooh don't let it die that fire inside
Honey oh, fly me home
