

**Heart Upon the Floor
Oshima Brothers**

I've been waiting to find
Some piece of mind is hiding round the corner
'Cause today I saw that smile
And I thought I'd die when she said that I could hold her

So we danced all night and when she had to go
She left me standing with my heart upon the floor

I've been chasing that smile
And I hope to find it on top of every mountain
Been asleep for quite a while
But I awoke when that feeling came a-pounding

So we danced all night the room faded away
As she took my hand the band began to play

I've been waiting to find
Some piece of mind is hiding round the corner
Yesterday I saw that smile
And I thought I'd die when she said that I could hold her

So we danced all night and when she had to go
She left me standing with my heart upon the floor

So we danced all night and when she had to go
She left me standing with my heart upon the floor
