

Hold Me Closer Oshima Brothers

Heart shatters so I stumble down to my knees
I clutch the gravel shadows coming for me
And I told you your emotion wasn't easy
And you told me your devotion's starting to leave

Baby I can see you don't need me
And don't see that I'm bleeding (I'm bleeding)
Come on
Hold me closer

This mistake makes my chest ache slowly I bleed
The pain my lungs take you're the heart attack I need
And I told your emotion wasn't easy
And you told me your devotion's starting to leave

Baby I can see you don't need me
And don't see that I'm bleeding (I'm bleeding)
Come on
Hold me closer

This is my first step here although I've been around for twenty one
Try to be my fathers son spitting and singing the things I've done
Making a record and everything's beautiful
Taking the highroad to see what I'm living for
Hitching a ride to catch up beside the angel that I saw walking across the
Earth tone dollar bills I've had my fill of killing
I grew up in the forest story telling it to the willing
I'm simple I got rhymes and rhythms vocals and guitar
Stand and deliver the poems I wrote to hit you to the heart so

Baby I can see you don't need me
And don't see that I'm bleeding (I'm bleeding)
Come on
Hold me closer

First step although I've been around for twenty one
First step although I've been around for
