

**Letter**  
**Oshima Brothers**

This is the letter I don't think I could write to you  
Maybe it's better if I leave you alone  
But it's two AM and I've been missing  
All the time we spent on the phone

We used to sing together 'til we were half asleep  
And we'd begin to make up most of the words  
You would sit on the piano  
Catching me forgetting all of the chords

And I don't know where to start  
I keep on playing hide and seek with my heart

I don't know if I ever want to get through to you  
But I'm afraid to let the silence go on  
Cos the last time that I saw you  
We pretended we we're getting along

And I don't know where to start  
I keep on playing hide and seek with my heart

This is the letter I don't think I could write to you  
Maybe it's better if I leave you alone  
But it's two AM and I've been missing  
All the time we spent on the phone

And I don't know where to start  
I keep on playing hide and seek with my heart  
Oh I don't know where to start  
I keep on playing hide and seek with my heart
