

Midnight in the Dark
Oshima Brothers

Midnight in the dark
Fumble for a spark
We were silhouettes
On the night we met

We had hearts in spades
That was all erased
When the cards you played
Made it just a game

You forget
Everything you done
But always think you won
With just a high card
You reset
Don't need this guitar
For you it isn't hard
To get another midnight in the dark

I packed the boxes tight
That origami night
Cause I never want to break
Anything I make

You kept our fitted sheets
Never tossing in your sleep
I should have called your bluff
When you said you could win at love

You forget
Everything you done
But always think you won
With just a high card
You reset
Don't need this guitar
For you it isn't hard
To get another midnight in the dark
Get another midnight in the dark
