

Mountain
Oshima Brothers

We tried to find a path to walk together
An easy way up to the mountain top
The colored leaves are changing with the weather
But I don't know if that is what I want

And I came alive
With the spark you lit in my hands
But I've gotta fly
If I'm gonna fit in your plans

You said you found a bridge to cross the river
I couldn't put my questions in a line
I want the other side to go forever
But I don't know if that is what I'll find

And I came alive
With the spark you lit in my hands
But I've gotta fly
If I'm gonna fit in your plans

When are you gonna see
That you mean the world to me

When are you gonna see
That you mean the world to me
