

The Way It Goes
Oshima Brothers

Time has come
I got to travel on to find the places I've been coming from
Everyone
They all know who I am but I can't see what I am running from

Cause I sometimes hit the road
Without a second thought I go
And I lose myself to the things that I don't know
That's just the way it goes

Little girl
Please put your hand in mine to slow the pace that I am moving on
Till the world
Falls from the sky I know that I will never be so settled down

Cause I sometimes hit the road
Without a second thought I go
And I lose myself to the things that I don't know
That's just the way it goes

Time has come
I got to travel on to find the places I been coming from
Everyone
They all know who I am but I can't see what I am running from

Cause I sometimes hit the road
Without a second thought I go
And I lose myself to the things that I don't know
That's just the way it goes
